

WindRiver®

The Mission at Wind River is simple,
Build the best ceiling fans possible utilizing
State-of-the-art materials and production.
Our unique spectrum of design will provide
a lifetime of form and function for any
Home or castle...

Feel the breeze... Wind River

WIND RIVER

2024 Product Release

Tunable White LEDs

With three Kelvin temperatures to choose from and full range dimming capabilities, you can truly tune your light to fit your Décor, match existing lighting in the home, or even sync up with your circadian rhythm!

3000K

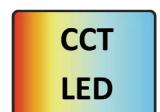

4000K

5000K

Look for the CCT logo at the bottom of each page to find the models with the new Technology

Smart by bond

Each Wind River smart fan has a Wi-Fi chip built into the receiver

No additional equipment is required

Download the FREE Bond Home app to get started

Look for the Smart by bond logo at the Bottom of the page

Recommended Room Size

Room Size: 100 square feet or less

Blade sweep: 44"-52"

Room Size: 100-150 square feet

Blade sweep: 52"-62"

Room Size: 150 square feet or greater

Blade sweep: 62"-70"

Recommended Down Rod Length

Ceiling Height	Downrod Length
20ft	72 in
18 ft	60 in
16 ft	48 in
14 ft	36 in
12 ft	24 in
10 ft	18 in
9 ft	12 in
8 ft	Included Rod or Flushmount

Symbol Guide

Smart fan Technology

Our smart fans are equipped with a smart by bond receiver with built in Wi-Fi making them compatible with Amazon Alexa and Google Home.

DC Motors

Ceiling fans equipped with DC motors have quiet operation and are up to 70% more efficient than ceiling fans with AC motors.

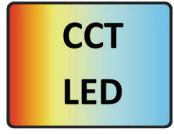

Damp Rated

Damp rated ceiling fans are great for high humidity settings like covered porches, patios, and sunrooms.

Wet Rated

Wet rated ceiling fans are designed for areas where direct exposure to moisture is possible like pergolas and open porches.

CCT LED

Our color changing LEDs give the end user the ability to customize the light source of the ceiling fan to match existing lighting in the home.

Integrated LED

LED light sources like the ones used in our ceiling fans pair high efficiency with a long-life span.
